Dear Ms. Billington:

**SUBJECT: Letter of Support for the Water Resources Association of Yolo County Proposition 50
IRWMP Planning Grant Application**

On behalf of the City of Woodland, this letter is being submitted in support of the request by the Water Resources Association of Yolo County (WRA) application for grant funding under Proposition 50, Chapter 8, Integrated Regional Water Management Grant Program.

The City of Woodland believes that completion of an Integrated Regional Water Management Plan (IRWMP) in Yolo County is important to future water management decision-making. Coordinated regional water management is and has been a long-time goal of Yolo County water interests, as well as the State of California. This IRWMP grant application builds on the collaborative efforts of the WRA and the Department of Water Resources (DWR) that have already led to a better understanding of water management in Yolo County.

Recognizing the importance of good science and data to assist in the proper planning and management of the surface and groundwater supplies of Yolo County, the City of Woodland strongly encourages DWR and the State Water Resources Control Board to provide funding toward the continued efforts of the WRA, as requested in the Proposition 50 IRWMP project application before you.

Sincerely,

GARY WEGENER,
Director of Public Works

RE: Letter of Support for the Water Resources Association of Yolo County Proposition 50
IRWMP Planning Grant Application

Dear Ms. Gentile,

On behalf of the City of Davis, this letter is being submitted in support of the request by the Water Resources Association of Yolo County (WRA) application for grant funding under Proposition 50, Chapter 8, Integrated Regional Water Management Grant Program.

The City of Davis believes that completion of an Integrated Water Management Plan (IRWMP) in Yolo County is important to future water management decision-making. Coordinated regional water management is and has been a long-time goal of Yolo County water interests, as well as the State of California. This IRWMP grant application builds on the collaborative efforts of the WRA and the Department of Water Resources (DWR) that have already led to a better understanding of water management in Yolo County.

Recognizing the importance of good science and data to assist in the proper planning and management of the surface and groundwater supplies of Yolo County, the City of Davis strongly encourages DWR and the State Water Resources Control Board to provide funding toward the continued efforts of the WRA, as requested in the Proposition 50 IRWMP project application before you.

Dear Ms. Billington:

RE: Letter of Support for the Water Resources Association of Yolo County
Proposition 50 IRWMP Planning Grant Application

On behalf of the City of Winters, this letter is being submitted in support of the request by the Water Resources Association of Yolo County (WRA) application for grant funding under Proposition 50, Chapter 8, Integrated Regional Water Management Grant Program.

The City of Winters believes that completion of an Integrated Regional Water Management Plan (IRWMP) in Yolo County is important to future water management decision-making. Coordinated regional water management is and has been a long-time goal of Yolo County water interests, as well as the State of California. This IRWMP grant application builds on the collaborative efforts of the WRA and the Department of Water Resources (DWR) that have already led to a better understanding of water management in Yolo County.

Recognizing the importance of good science and data to assist in the proper planning and management of the surface and groundwater supplies of Yolo County, the City of Winters strongly encourages DWR and the State Water Resources Control Board to provide funding toward the continued efforts of the WRA, as requested in the Proposition 50 IRWMP project application before you.

Sacramento, CA 94236-0001

Dear Ms. Billington:

SUBJECT: Letter of Support for the Water Resources Association of Yolo County
Proposition 50 IRWMP Planning Grant Application

On behalf of the Yolo County Flood Control and Water Conservation District (District) this letter is being submitted in support of the request by the Water Resources Association of Yolo County (WRA) application for grant funding under Proposition 50, Chapter 8, Integrated Regional Water Management Grant Program.

The District believes that completion of an Integrated Regional Water Management Plan (IRWMP) in Yolo County is important to future water management decision-making. Coordinated regional water management is and has been a long-time goal of the District and other Yolo County water interests, as well as the State of California. This IRWMP grant application builds on the collaborative efforts of the WRA and the Department of Water Resources (DWR) that have already led to a better understanding of water management in Yolo County.

Recognizing the importance of good science and data to assist in the proper planning and management of the surface and groundwater supplies of Yolo County, the Yolo County Flood Control and Water Conservation District strongly encourages DWR and the State Water Resources Control Board to provide funding toward the continued water related planning efforts of the WRA, as requested in the Proposition 50 IRWMP project application before you.

Sincerely,

A handwritten signature in black ink that reads "Ann T. Brice". The signature is written in a cursive, slightly slanted style.

RE: Water Resources Association of Yolo County Proposition 50 IRWMP Planning Grant Application

Dear Ms. Billington:

The University of California, Davis supports the Water Resources Association of Yolo County (WRA) application for grant funding under the Proposition 50, Chapter 8, Integrated Regional Water Management Grant Program.

We believe developing an Integrated Regional Water Management Plan for Yolo County would be a major step towards coordinated water management in the county. A regional approach to water management would foster sound management of water resources and has been a long-time goal of Yolo County water interests. This IRWMP grant application builds on the collaborative efforts of the WRA and the Department of Water Resources that have already led to a better understanding of water management in Yolo County.

Recognizing the importance of good science and data to assist in the proper planning and management of the surface and groundwater supplies of Yolo County, UC Davis strongly endorses the application and encourages awarding the grant so that coordinated water management efforts can continue.

Sincerely,

A handwritten signature in black ink, appearing to read "John Meyer", is written over a faint circular watermark of the University of California seal.

John A. Meyer, Vice Chancellor
Resource Management and Planning
