

**WATER RESOURCES ASSOCIATION OF YOLO COUNTY  
INTEGRATED REGIONAL WATER MANAGEMENT PLAN COMPLETION**

**ATTACHMENT 3 – WORK PLAN  
SECTION C – BUDGET**

Presented on Table C-1 is the budget for performing the work items described in Section B of this proposal. The total amount of funding requested is \$500,000.

The matching funds to be provided by the WRA members to perform the work described in the Work Items is \$292,565, including staff time and monies, which exceeds the 25 percent matching required. This represents a substantial commitment on the part of the WRA members. The WRA members are not seeking reimbursement in this proposal. Additionally, although there are disadvantaged communities within the region, consistent with the criteria set forth for Proposition 50, the WRA is not seeking any waiver or reduction in matching funds either.

In addition, the various member agencies have expended or are expending, concurrent with the IRWMP process, \$448,000 in matching funds since November 2002, on work directly related to advancing water resources planning and management in the region.

These work items, for example, relate to updating Urban Water Management Plans and Groundwater Management Plans, developing and continuing work on groundwater monitoring, modeling programs, etc.
